Malaysia is a leading maritime nation in the region with 90% of its trade being seaborne. Port Klang, located along the Straits of Malacca, is among the Top 20 container ports in the world. Port Klang has established shipping connections with 350 ports in 130 countries provided by more than 30 leading global and regional shipping lines. With emphasis on environmental sustainability, digitalization and resilience, the transformation in the maritime and logistics sector through innovative solutions and best practices are given top priority.
